

Dear friends and brethren,

There are few things more meaningful than a visit to the land of the Bible. It is a chance to personally encounter places you have only read about. It is even more thrilling to uncover artifacts last seen and touched by people in Bible times.

I invite you to join me on my eighth Bible Lands Tour, and my ninth archaeological excavation, next summer. You will enjoy *12 full days of sightseeing*. Explore Jerusalem, Caesarea, Megiddo, Dan, Capernaum, the Sea of Galilee, and much more. Swim in the Sea of Galilee. Walk in a newly-discovered Galilean synagogue from Jesus' time. Stand in the very place where David faced Goliath. Contemplate Bible events in the very places where they happened.

You also spend ten days with the excavation at the biblical city of Lachish, one of Israel's premier archaeological sites. Meet volunteers from around the world and uncover layers from the times of Israel's early kings. Take part in the discovery of new artifacts and enjoy evening lectures on biblical archaeology presented by the archaeologists.

Experience Israel in a way others do not. With eight seasons of archaeological field training, I can connect you with experiences that add dimension and depth to your understanding of God's Word. This trip offers insights no book, class, or lesson can provide.

Space is limited - early reservation is a must. Send your registration form and deposit to secure your place on this immersive Bible Lands experience.

Sincerely,

Luke Chandler
